CONFIDENTIAL: APEX MICROTECH INTERNAL LOGISTICS & QA AUDIT

Evidence ID	HID-003
Document Title	Apex Microtech Internal QA Staging Audit & Reconciliation
Investigating Entity	Apex QA & Dispatch Audit Committee
Root Cause Found	3 cartons (150 units) were withheld for QA and never loaded onto truck
Location of Missing Units	Secured at Apex Bangalore Staging Bay Pallet B-4
Financial Reconciliation	Zenith Electronics is owed a credit note of INR 5,40,000

Audit Reference: HID-003 | **Date:** October 18, 2026

Investigating Body: Quality Assurance & Dispatch Compliance Committee, Apex Microtech Bangalore.

Scope: Reconciliation of Purchase Order PO-88421 and Invoice DISP-6619.

Audit Findings:

1. **Physical Stock Check at Bangalore Plant:** On October 17, annual pre-audit physical inventory check at Staging Bay Pallet B-4 discovered 3 sealed cartons (Serial #IC902-351 through IC902-500, total 150 units) labeled for Zenith PO-88421.

2. **Video Audit of Dispatch Dock (Oct 12, 10:45 AM):** QA Inspector flagged Cartons #8, #9, and #10 for routine solder mask visual verification. While those 3 cartons were moved to the inspection bench, shipping clerk Sundaram printed Invoice DISP-6619 showing all 10 cartons dispatched.

3. **Handover to Courier:** Courier driver was handed only the 7 cleared cartons (350 units). The shipping clerk forgot to reconcile the final box count against the invoice before the truck departed.

4. **Email Domain Security Review:** Apex IT Security confirmed that domain 'apex-orders-update.com' is an external phishing/spoofing domain not operated by Apex Microtech. An external party attempted to redirect delivery.

Executive Conclusion: The missing 150 units were never dispatched from Apex Microtech. They remain in Apex Bangalore staging warehouse. Zenith Electronics was over-billed by INR 5,40,000 for 150 undelivered units.
